

LittleWeebLibrary.Static
Classes.UtilityMethods.BasePath

```
graph LR; A["LittleWeebLibrary.Static<br/>Classes.UtilityMethods.BasePath"] --> B["LittleWeebLibrary.Static<br/>Classes.UtilityMethods.Check<br/>OperatingSystems"]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text "LittleWeebLibrary.Static" and "Classes.UtilityMethods.BasePath". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "LittleWeebLibrary.Static", "Classes.UtilityMethods.Check", and "OperatingSystems".
